BIOGRAPHY:

De Stekkers from the south of the Netherlands are fine tuning their organtronic garage punk since 2007. They play in a classic garage line-up: vocals, guitar, bass, drums and organ. The Philicorda-organ sets the vibe while De Stekkers check out the crowd with their notorious 3D glasses. Shows often end in a chaotic dancing party. For their first full length they have teamed up with Caleb Bingham to record, mix and master the album.
